June 2009 Newsletter

Did You Know?

Hummingbirds are all around. If you would like a visit try the following:

Buy a hummingbird feeder and place in a shady open area of your yard. You will need 1 part sugar to 4 parts water. Bring the water to a boil. Add the sugar and let dissolve. Take off heat and let cool completely. No need to add food coloring! Put the sugar solution in the feeder and watch!

NOTE: You will need to clean your feeder about once a week. This can be done with one part white vinegar to 4 parts water. Be sure to rinse well!

As a resident of Hidden Valley Private Estates, you will begin receiving this monthly newsletter via mail. If you would prefer to receive your newsletter via email send your email address to:

Welcome to the Neighborhood!!

Welcome to one of the most beautiful neighborhoods on the Olympic Peninsula where everyone has a view of the majestic Olympic Mountains while some even have a view of the Straits of Juan de Fuca and Victoria, BC. It's no wonder that we've had many visitors

and lots are starting to be bought! Spring has finally arrived bringing warm weather and clear skies giving us spectacular views. You'll notice that new

homes are being started. Be sure to welcome our newest neighbors. Enjoy this wonderful neighborhood and all it has to offer.
